Presenter: Dr Deb. Callcott

Senior Lecturer

B Ed (HPE) M Ed (Special Needs) PhD.

Dr Deb. Callcott is a Senior Lecturer at Edith Cowan University. Her PhD investigated the link between learning disabilities and movement. As well as lecturing in Physical Education Deb has provided extensive support to schools in developing holistic movement programs for students. Her research, published in an international Early Childhood Journal, outlines the efficacy of linking movement to beginning literacy in the early years.

- No refunds for unattended sessions.
 - Transferring dates incurs a \$20 administration fee.
 - Cancellations must be made 7 days prior to presentation or 30% of the registration cost will be charged.

Moving on with Literacy

The Synergistic effect of a movement program shown to “add on” to the efficacy of Early Literacy Instruction PLUS instruction for proficiency in implementing Fundamental Movement skills in Early Childhood (**K3, K, PP**).

The presentation covers:

- **Standard 1: 1.3, 1.5, 1.6**
- **Standard 2: 2.1, 2.2, 2.3, 2.5**
- **Standard 3: 3.2, 3.3, 3.7**

This workshop:

- delivers an overview of the importance of fine and gross motor development in early learning
- describes the developmental skill acquisition process of fundamental movement skills exclusive to the early years and introduces the generalist teacher to successful strategies for the introduction and practice of these skills
- provides early childhood practitioners with a research supported program proven to enhance early years learning readiness at a neurological and physiological level (includes provision of a pack of leveled songs, activities and movements which have been trialled and evaluated in Western Australian schools)
