Fine and Gross Motor Developmental Milestones

Now that I am 5 years old...

I should be able to:

Tips for Home

- Have your child help with household chores, e.g. setting the table, packing away toys, or putting clean crockery and cutlery away. It's great for matching and sorting.
- Encourage your child to be as independent as possible in dressing, eating and grooming (i.e. teeth brushing, hair brushing).
- Try and build some table activity time into your day such as drawing, cutting and gluing. Use a wide variety of materials, and writing implements to keep it interesting.
- Grab a ball and throw it, kick it, bounce it and catch it!
- Play some outside games, e.g. skipping with a rope, races that involve hopping, skipping, jumping, running, balancing.
- Join in activities with your child. It is more fun to play together.

Causes For Concern

- Avoids or has difficulty with hand activities, e.g. drawing, puzzles, scissor use.
- Difficulties with dressing or eating.
- Stumbles or falls frequently or often bumps into people or objects.
- Has trouble keeping their eyes on what they are doing.
- Avoids or dislikes messy play or unexpected touch.
- Seems very busy and isn't able to calm or quiet self.
- Avoids or dislikes equipment that is fast moving or off the ground, e.g. swings, roundabouts.

Should you have any concerns about your child's movement or motor development, consult an Occupational Therapist.
