What is Included in This Year 3, 4, 5 & 6 Screening & Tracking Manual?

This manual serves as a reference guide for the use of PLD's screening and tracking tools. Included are instructions on what and when to screen and the materials required.

The screens correlate with PLD's phonics and high frequency words teaching sequence. We recommended that the screens are administered following a solid period of repeated targeted instruction. In this way, the screens function as a check-in on progress.

Keep in mind that it may be appropriate for schools to adapt the timing of the screens depending upon the demographics of the school community and the associated student entry levels to the school.

How to Monitor Student Progress?

Tracking student development is central to the PLD process. Regular structured tracking from the Early Years to Year 6 is facilitated efficiently through the use of [PLD's Tracking Sheets](#). These are available for download on our website and an instructional video is located [here](#). The school should download the tracking sheets at the beginning of each school year and set them up for each class. This one document is then utilised throughout the year and populated each term by individual teachers based on the results of the placement screens. By the end of the school year this document will not only serve as an overview of every student in the school's literacy development, but will also be useful when judging the effectiveness of PLD's implementation in each classroom

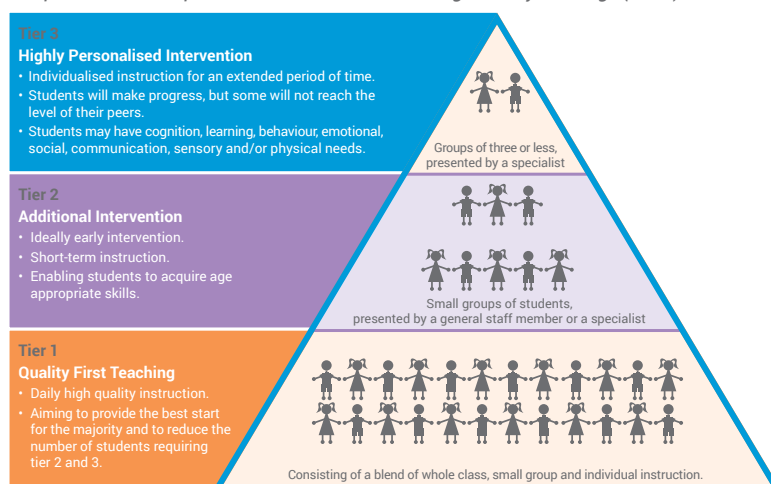

How to Identify Students Who Are Delayed or Advanced?

PLD recognises that every class presents with a broad range in student ability and the individual needs of each student should be addressed and scaffolded through rigorous and relevant programming.

Through the delivery of structured repeated targeted instruction, age-appropriate students should acquire skills as outlined within the [Teaching Sequence Manual](#). However, it is highly likely for there to be students working below and above the typical skill acquisition level. In order to cater for this range in ability and program effectively, teachers should use their populated tracking sheets to divide their class into three groups. The groups are fluid and may change throughout the year depending on the data. This instructional video explains how to use the tracking sheets to establish three targeted teaching groups and identify a learning focus for each group for the term ahead: <https://www.youtube.com/watch?v=X4jDqnbWOAg&t=3s>

Structured Synthetic Phonic Teaching

Adapted from "Independent review of the teaching of early reading" (2006)

AUSPELD recommends a three tier approach to implementing structured synthetic phonics in schools, as explained in the above graphic, and has identified PLD as a recommended Tier 1 (whole class) program and a Tier 2 (small group) evidence-based structured synthetic phonics program.

PLD's Year 3, 4, 5 & 6 Teaching Sequence Manual applied in conjunction with consistent tracking will facilitate increased student outcomes and a higher degree of consistency across classrooms.

How to Get Started with PLD's Screening & Tracking?

- Step 1: Complete the [Synthetic phonics and beyond](#) online course or attend a seminar.
- Step 2: Download the [Year 3, 4, 5 & 6 Teaching Sequence Manual](#).
- Step 3: Download this Year 3, 4, 5 & 6 Screening & Tracking Manual.
- Step 4: Register for, download and set up the PLD Tracking Sheets on a whole school level.
- Step 5: Review the [Phonic and Sight Word Sequence](#) for where to start teaching and this 'Screening & Tracking Manual' for details on the first progress check.

Each of these steps have been outlined in detail at: <https://pld-literacy.org/year-3-6/>

The full versions of the screens below are located within this manual. For an outline of when to present each screen refer to the assessment schedule on page 6.

The Year 3, 4, 5 & 6 Spelling Placement Screens are designed to track the emergence of phonic-based spelling skills. The screens are used to track skill development each term and to assist in planning targeted teaching and allocation of phonic-based spelling teaching and learning concepts.

Recommended For Students Operating at a Junior Primary Level

Early Reading Screen for Middle and Upper Primary Students Operating at a Junior Primary Level

This screen is designed to assess reading skills for students in Years 3-6. It includes sections for CVC words, Targeted Teaching Groups (Target 1 to Target 9), and a final section for students who still require decodable reading material. The assessment is structured to identify specific areas of difficulty and inform targeted teaching.

Which Students Still Require Decodable Reading Material?

This screen provides a detailed breakdown of reading performance. It includes a calculation for Words Correct Per Minute (WCPM) based on the number of words read correctly and the time taken. It also provides a classification of students based on their WCPM score, indicating which students may still require decodable reading material for support.

Difficulty Acquiring Stage 1 Target 1, 2 & 3 Screens

This screen is used to identify students who are having difficulty with Stage 1 spelling and reading targets. It includes a list of words and a grid for recording student performance. The screen is designed to help teachers identify specific areas of difficulty and provide targeted support.

The **Early Reading Screen for Middle and Upper Primary Students** is a phonic-based single word reading assessment. It presents words that gradually increase in length and phonic complexity. The progression reflects PLD's Structured Synthetic Phonics approach. The assessment takes three minutes to present and can be used to determine the appropriate range of decodable reading material some older students still require.

Words Correct Per Minute (WCPM)
Students in Year 3-6 should be reading 100-120 words correct per minute. The calculation of WCPM provides an indicator of reading fluency.

The **Difficulty Acquiring Stage 1 Target 1, 2 & 3 Screens** have been designed to be presented when students are slow to progress through Stage 1. The screens identify the point at which the student is experiencing difficulty and which skills to target in Tier 2 programming.

The Year 3, 4, 5 & 6 Spelling Placement Screens are designed to track the development of single-word spelling based upon PLD's Structured Synthetic Phonics sequence. The information gained will highlight the areas requiring further targeted teaching and will also assist in the allocation of spelling lists. Each Year 3, 4, 5 & 6 class should be presented with the beginning of the year spelling placement screen, ideally in Week 1 of Term 1.

Student Record Forms

Spelling Test Words for Year 3, 4, 5 & 6 Students

Preparation:

- Duplicate the relevant student record form for each student, located in the Appendix.
- It is recommended that the spelling screen is presented to the whole class in one sitting.
- Explanation: "We are going to complete a spelling test. The words gradually become more difficult. Listen carefully to the words I am asking you to spell and do your best. Please do not use an eraser. If you want to make two attempts spelling the word, I would like to see both of your attempts."

Instructions:

- "Word number one is [It is optional to place the test word in a sentence]. Write the word"
- Repeat the process for each word in the sections.

Spelling Placement Screens are conducted at the beginning of the school year (ideally Term 1, Week 1) and at the end of Terms 1, 2 and 3.

Marking the Spelling Placement Screens

FAQ's	Response	Test Examples
Do I mark the word correct when the student reverses letters? What happens when the student reverses a 'b' or 'd'?	No. Letter reversals are a common occurrence in the first few years of learning to spell and write. Repeated practice forming letters (and particularly the letters subject to frequent reversals) is needed with an emphasis on starting points and verbal cues. Reversing b & d in middle and upper primary will result in a word being marked incorrect.	 X Test word: 'sudden'
Do I mark the word correct when the student uses capital letters?	Yes. When students write their spelling words with some (or all) upper-case letters, this reflects a handwriting weakness and not a spelling issue. This observation signals the need for intensive lower-case letter formation skill development.	 ✓ Test word: 'plunge'
Do I mark the word correct when the student writes the phonic pattern correct but other letters in the test word are incorrect?	No! Spelling test words are only marked correct, if they have been spelled correctly. If the target phonic pattern is correct, but other errors exist within the word, then technically the word should still be marked incorrect. Including the phonic pattern means that the concept is emerging but it has not been mastered and is not ready for transference into writing.	 X Test word: 'toast'
Do I mark the word correct when the student gets the middle letter (typically the vowel) incorrect?	No. It is common for students who had ear infections, who present with language delays or for whom English is not a first language to experience difficulties with medial vowels e.g. a/u or i/e. This observation signals the need for targeted teaching in the area. Remember words are only marked as correct when test words are spelled in full correctly.	 X Test word: 'crumb'

Scoring the Spelling Placement Screens

Use the Quick Reference Guide (located on the following pages) to convert student scores into percentages. Enter the percentages into the tracking sheets. Arrange the students into three targeted teaching groups and set learning foci for each.

Examples of Class Profiles Organised into Three Targeted Teaching Groups

This also serves to report on student skill development and PLD implementation.

Using the PLD Tracking Sheets in Year 3, 4, 5 & 6

The downloadable PLD Tracking Sheets are central to PLD's approach. The sheets link the [Phonic and Sight Word Sequence](#) with the Year 3, 4, 5 & 6 screening & tracking process outlined in this manual. Through beginning and end of term progress checks, student results are recorded onto the PLD Tracking Sheets, which form the basis of the targeted teaching once three groups are identified. This process enables the classroom teacher to report on skill development of the class and simultaneously to establish an implementation plan.

How To Get Started Using the PLD Tracking Sheets?

- **Step 1: Download and set up the tracking sheets** using the following link: <https://pld-literacy.org/plds-tracking-sheets/>. The tracking sheets should be converted into a 'cloud-based' format. Each class is allocated a different tab.
- **Step 2: What to teach? When to teach?** Explicit teaching as outlined in the [Year 3, 4, 5 & 6 Teaching Sequence Manual](#).
- **Step 3: What to screen? When to screen? How to screen?** During Week 1 & 2 and again in Week 10, schedule progress checks through the presentation of short screens, as outlined on pages 7 - 23, of this Manual.
- **Step 4: Enter the results in the PLD Tracking Sheets.** A sample entry has been outlined below.
- **Step 5: How to create a class profile and three targeted teaching groups?** Watch the Year 3, 4, 5 & 6 PLD Tracking Sheets video <https://pld-literacy.org/year-3-6/> for an explanation on how to process the test results and adjust the order of the students by establishing three targeted teaching groups.

Reminders for Literacy Coordinators and Teachers	
Prior to the beginning of Term 1	Before the end of Term 2, 3 & 4
<p>Literacy Coordinator: Download the new version of PLD's Tracking Sheets from the website and set up the cloud-based document with the names of specific classes. Share the link with all classroom teachers.</p> <p>Teachers: Populate your class's tracking sheet tab with the names of your students and record any delays, difficulties or diagnoses in the NOTES column.</p>	<p>Literacy Coordinator: Remind teachers to administer the relevant screens in the last week of term and populate the PLD tracking sheets by the end of the term.</p> <p>Teachers: Populate your tracking sheet with your student's results, group students and identify a learning focus for each group.</p>
During Midterm Professional Development Day/s	
<p>The schoolwide tracking sheet should be reviewed regularly to monitor student development, identify any students requiring intervention and to assess PLD implementation.</p> <p style="text-align: center;">If you need help with using PLD's tracking sheets or grouping your students please contact the PLD office.</p>

Additional Assessments for Students Operating at a Junior Primary Level

Which Students Still Require Decodable Reading Material?

Option 1: Words Read Correctly Per Minute (WCPM)

Fluency is important because of its strong correlation with reading comprehension. Students who lack fluency will experience reduced comprehension. Fluency comprises of accuracy, reading rate, expression (or prosody) and automaticity.

Name of Student		Year	
Administered By		Date of Sample	

Preparation:

Select an unfamiliar passage that is appropriate for the student's reading level. Make two copies. One copy is for the student to read from and the other is to be inserted into the space below.

Instructions:

1. Present a new and unseen passage to the student to read for one minute (set a timer for 60 seconds).
2. Encourage the student to do their best reading, not their fastest reading.
3. Use a clipboard so the student cannot see you write.
4. Place a mark above each word they read incorrectly.
5. If they stop on a word, give them three seconds before providing the word and mark it as an error.
6. Set a timer for 60 seconds. Stop when the alarm sounds.

Insert copy of a passage here:

Calculation:

Outcome:

- The student's WCPM is not age-appropriate (hence decodable reading books are required).
- The student's WCPM is appropriate and student read with expression and smoothness (and hence does not require decodable reading books).

Average Rates of Reading (Konza, 2012)

- By the end of Year 1: 60 words correct per minute.
- By the end Year 2: 90-100 words correct per minute. and
- In Years 3–6: 100–120 words correct per minute.
- Skilled adult readers: approximately 180 words correct per minute.

Which Students Require Decodable Reading Material?

Option 2: The Early Reading Screen for Middle and Upper Primary

Option 2: The Early Reading Screen for Middle and Upper Primary is a quick single-word reading assessment. It presents words that gradually increase in length and phonic complexity. The progression reflects PLD's Structured Synthetic Phonics approach. The assessment takes five minutes to present and should be used to determine the level of decodable books that students require for home and in-class reading.

Preparation:

Duplicate the student record form for each child on page 16 and fill in the student's details at the top of the page. Use a coloured pen to fill in the name of the person administering the test and the date. Check how to mark and score the screen below. (PLD recommends using a different coloured pen each time the screen is administered).

Instructions:

- Say: "You are going to do some reading for me. Place your finger under each word and read each one. I will tell you when to stop."
- Use the coloured card to reveal one line of text at a time.

Marking & Scoring the Reading Test Items:

As a rule, record what the student has said (not just a tick or cross). This will provide information on the student's reading strategies. By using a different colour in each term, skill development (ie the strategy used) will be easily identified.

Correct Reading of the Test Word	Example 1: Read the word 'tap'	Example 2: Read the word 'shop'
Sounds out and blends each alphabet sound (and digraph).	t/a/p ✓	sh/o/p ✓
Sounds out with 'chunking' of some letters. May also be described as onset & rime reading.	t/ap ✓	sh/op ✓
Reads the word automatically as a whole word, without sounding aloud or 'in the student's head'.	tap ✓	shop ✓
Incorrect Reading of the Test Word (always write down what the student verbalised)	top ✗	shed ✗
Sounds out the word, but does not blend.	ṫap ✗	sḣop ✗
No response or would not attempt.	?	?
Other Observations		
Self Corrected (SC) or reread re-attempted a word.	t/a/p = tat SC ✓	sh/o/p = ship SC ✓
Rereads (LR) when a student loses their place and rereads a line(s) of words.	RR	RR
When the student is prompted with alphabet sounds, phonic sounds or blending.	P	P

It is common for students in the middle and upper primary to be reading at a higher level than their operational spelling and writing levels. The majority of middle and upper primary students should have progressed onto graphic novels or more age-appropriate reading material. This will be the case even when phonics-based spelling and writing is lagging.

For a small proportion of students, in addition to their spelling and writing lagging, so too will be their reading. For this particular group, it will be necessary to track their phonic-based decoding and word reading, with the view of reviewing the progress from the previous term, but also to allocate decodable reading material.

PLD's early reading screens identify the area (or areas) requiring phonic-rich targeted reading practice. On the basis of the testing results, the phonic passages within the Phonic Dictation range are ideal to be allocated for repeated timed reading.

Sample From a Year 3 Student:

Single Word Reading					Instructions: "Read the following words. They begin easy and gradually get more difficult. I will tell you when to stop."

Introduce Repeated Reading or Phonic-Based Decodable Reading Material

It is recommended to introduce repeated timed reading (at the identified levels). This process should be motivating, as students should see the daily improvement in their scores and reading, while providing repeated exposure to focus on phonic patterns.

- Monday read to an adult (with corrective feedback) and timed.
- Tuesday read to an adult (with corrective feedback) and timed.
- Wednesday read to an adult (with corrective feedback) and timed.
- Thursday read to an adult (with corrective feedback) and timed.

Task 1: Reading Practice

Repeated reading of short passages has been shown to improve rates of reading, reading accuracy and fluency. This passage was read:

Optional: Time each reading: Once Twice Three Times Four Times

Reading 1: _____ Reading 2: _____ Reading 3: _____ Reading 4: _____

The Tent in the Wind

In the sand by a pond a tent went up. Just as it was dusk the tent went up. But a gust of wind twisted the tent and the tent went down with a thump!

The Queen and the Quilt

The queen wanted a quilt. She wanted it quick. 'You have a week,' she quipped. 'Can you make a quilt quick?' The queen got her quilt. The queen was thrilled with her quilt.

Task 1: Reading Practice

Repeated reading of short passages has been shown to improve rates of reading, reading accuracy and fluency. This passage was read:

Optional: Time each reading: Once Twice Three Times Four Times

Reading 1: _____ Reading 2: _____ Reading 3: _____ Reading 4: _____

Fred's Trip

Fred went on a trip in his truck. Fred went on a track in his truck. Crash, smash, bang! Fred's truck hit a tree. Fred cannot go on his trip.

Students Scoring 0% to 20% on the Stage 1 Target 1 (CVC) Screens

When students enter Year 1 & 2 with very low literacy skills it can be challenging for teachers. While some students can be assigned CVC (or Stage 1 Target 1) reading, spelling and writing tasks, for a proportion of students this will not be appropriate as they may require pre-CVC skills to be targeted.

Supporting these Pre-CVC Students Requires Two Key Steps:

Step 1: Identification of the pre-literacy skills that require targeted teaching using the first Assessment for Students Experiencing Difficulty With Stage 1. This screen is located within the [Year 1 & 2 Screening & Tracking Manual](#). The short subtests aim to identify which pre-literacy skills require skill development so that progress through Stage 1 can occur.

Phonemic awareness

skills are highly correlated with the development of early reading and spelling. If students experienced multiple ear infections, if English is not their first language, if dyslexia occurs within a family or if the student has a speech or language delay, phonemic awareness may require additional targeted teaching within Year 1 & 2. Students need to be able to blend in order to decode CVC words and they need to be able to segment to be able to spell CVC words.

Prerequisite Skill 1: Blending 3 Phonemes (A prerequisite skill of decoding)
 Instructions: "Put the sounds together and guess the word _____."
 m (1 sec pause) u (1 sec pause) g = f (1 sec pause) a (1 sec pause) t = b (1 sec pause) e (1 sec pause) d =
 t (1 sec pause) a (1 sec pause) p = f (1 sec pause) i (1 sec pause) t = **Score** _____ /5 = _____ %

Negative Observations (suggesting further skill development is required, even if the student scored 100%)
 i.) Was the task presented with short pauses between sounds? Yes No
 ii.) Did the student request the sounds to be repeated? Yes No
 iii.) Did the student repeat the sounds in order to process the task? Yes No
 iv.) Did the task appear difficult? Yes No
 v.) Other _____

Prerequisite Skill 2: Phonemic Segmentation (A prerequisite skill of spelling)
 Instructions: "Sound out the word fan. There is a f/a/n. Can you sound out these words?"
 top Sounded t-o-p Other lid Sounded l-i-d Other web Sounded w-e-b Other

 ii.) Did the task appear difficult? Yes No
 iii.) Other _____

Alphabet sounds

(rather than letter names) are more important for early reading and spelling. It is very common in Year 1 or 2 to find students who have gaps in their alphabet knowledge.

Plan - select from the following

- A The student requires specific CVCC reading material, worksheets and CVCC spelling and writing tasks.
- B The student requires Pre-CVCC skill development and specifically a program targeting:
 - 4 Sound / Phoneme Blending (to support CVCC decoding/reading)
 - Segmentation of CVC Words (to support CVCC spelling and writing)
- C The student would benefit from a combination of A and B.
- D Daily scheduling of PLD apps. E Other: _____

Glossary of Terms

Synthetic Phonics - is a way of teaching children to read and spell. It has been identified as the most successful approach to establishing early literacy skills. The 'synthetic' component relates to the 'synthesising' or blending of phonemes (or individual speech sounds) and the 'phonic' component relates to written symbols (graphemes) being linked to the individual speech sounds (phonemes).

Phonological Awareness - the ability to think about, reflect on and manipulate the sound structures of spoken language (including alliteration, rhyme, syllables and sounds).

Phonemic Awareness - the ability to identify and manipulate individual sounds within spoken words. A sub-skill of phonological awareness.

Phonemes - are the smallest unit of speech sounds contained within words. For example the word teeth, has three phonemes: t/ee/th. It is generally agreed that there are approximately 44 sounds that make up the English language. As there are only 26 letters in the alphabet some letters need to be combined to represent the remaining speech sounds.

A Digraph - is when two successive letters represent a single speech sound (or phoneme). Digraphs occur as vowels and consonants.

- **Common consonant digraphs include:** sh (as in ship), ch (as in chop), wh (as in when), th (as in think) and th (as in then).
- **Common vowel digraphs include:** ai (as in rain), ea (as in leaf), oo (as in broom) and oo (as in look).

Graphemes - are the letters and groups of letters that represent phonemes (or individual speech sounds).

R-Controlled Vowels - When the letter 'r' follows a vowel, it makes it change it's sound. This is why it is commonly called an r-controlled vowel or a "Bossy R" E.g. a + r = "ar" u + r = "er" .
